

Press Release
B N AGRITECH LIMITED
October 06, 2025
Rating Assigned

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
Non Convertible Debentures (NCD)	200.00	Provisional ACUITE A Stable Assigned	-
Total Outstanding Quantum (Rs. Cr)	200.00	-	-
Total Withdrawn Quantum (Rs. Cr)	0.00	-	-

Rating Rationale

Acuite has assigned the long-term rating at '**PROVISIONAL ACUITE A (read as PROVISIONAL ACUITE A)**' on the Rs. 200 crore proposed 'Non- Convertible Debentures' of B N Agritech Limited (BNAL). The outlook is '**Stable**'.

The rating on the Rs. 200 Cr. proposed NCD is provisional and the final rating is subject to receipt of pending documentation:

- Final Term Sheet / Placement Memorandum
- Debenture Trustee Agreement (DTA) and Debenture Trust Deed (DTD)
- Deed of Hypothecation
- Document related to Security (DSRA) which shall be created upfront out of the proceeds of NCD
- Any other document relevant to the issue

Rationale for Rating

The assigned ratings takes into account of the long & established track record of operations, over a decade of highly experienced management in the same line of industry and improving scale of operations year on year primarily due to higher sales volume growing at a CAGR of 81.44% from FY 23 to FY 25. The company sells edible oils under their own brand known as Simply Fresh, Nutrica, Sakar Lite & R-Mark with having presence in more than 10 states and strong distribution network. The rating derives additional comfort from diversified product portfolio, healthy financial risk profile, efficient working capital operations and strong liquidity profile of the company.

However, the above strengths are partly balanced by various challenges such as susceptibility of margins due to exposure of volatility in raw material prices, intense competition and foreign exchange risk.

Acuite notes that the board of directors have approved the scheme of amalgamation of B N Agritech Limited into BN Agrochem Limited along with two other entities in the group on June 28, 2025. However, approval from regulatory authorities such as CCI & NCLT are still pending. Hence, it will take few years to complete the process.

About the Company

Mumbai based, B N Agritech Limited was incorporated in 2011 & is one of the India's fastest-growing company in the edible oil industry. The company is engaged in FMCG business &

operates under brand name of "Simply Fresh", "Simply Gold", "Nutrica", "Sakar Lite" & "R Mark". Their Product Portfolio mainly consists of Edible Oil, Bakery Fats, Specialty Fats &

Cocoa Butter Substitute among others. Mr. Ajay Kumar Agarwal is the current managing director of the company

Unsupported Rating

Acuite A-/Stable

Analytical Approach

Acuite has considered the standalone business & financial risk profile of the B N Agritech Limited (BNAL).

Key Rating Drivers

Strengths

Experienced Management

The company is led by key promoters Ajay Kumar Agarwal and Anubhav Agarwal, whose decades of varied industry experience and long-standing presence in the edible oil sector have been the main drivers of growth. This extensive history has been instrumental in building established, trust-based relationships with both customers and suppliers. With its noticeable presence in FMCG (Fast-Moving Consumer Goods) sector for both wholesale and retail segment, the company has established their own brands. The company have a diversified product portfolio including special grades of palm oil for institutional clients and cocoa butter substitute and other bakery fats, speciality fats for confectionery industry.

Improving Scale of Operations & Profitability

The revenue from the operations of the company has improved by 71.28%, thereby increasing the topline from Rs. 3,666.44 Cr. in FY 2024 to Rs. 6,279.82 Cr. in FY 2025. The improvement in revenue is mainly due to higher volume units sold by the company which is growing at a CAGR of 81.44% from FY 23 to FY 25. However, the average price realization declining year on year due to declining raw material procurement prices. The operating profit (EBITDA) of the company improved from Rs. 126.47 Cr. in FY 24 to Rs. 232.28 Cr. in FY 25. The operating margin of the firm improved by 25 bps which stood at 3.70% in FY 25 against 3.45% in FY 24. The Net margin improved & stood at 1.29% in FY 25 against 1.14% in FY 24. Acuite believes that the scale of operations & profitability will improve in near to medium term on the account of better volume sold.

Healthy Financial Risk Profile

The company's financial risk profile is healthy marked by net worth, gearing and debt protection metrics. The tangible net worth of the company improved & stood at Rs. 551.91 Cr. as on March 31, 2025, against Rs. 358.85 Cr. as on March 31, 2024. The improvement in tangible net worth is primarily due to accumulation of profits into reserves and infusion of funds through right issue & conversion of unsecured loans into equity share capital. The Gearing ratio of the company improved & stood at 1.11 times for FY 25 against 1.54 times for FY 2024. The Total outside Liabilities/Tangible Net Worth (TOL/TNW) improved and stood at 2.24 times for FY 25 against 2.31 times for FY 24. The debt protection metrices marked by ISCR & DSCR which stood at 2.66 & 1.92 times respectively for FY 25. The ROCE of the company improved & stood at 19.75% in FY 25 against 13.12% in FY 24. Debt/EBITDA stood at 2.69 times for FY 25. Acuité believes that going forward the financial risk profile of the group will improve in near to medium term backed by steady accruals and no debt funded capex planned.

Weaknesses

Vulnerability to volatility in raw material prices & foreign exchange risk

The company's profitability remains exposed to the volatility in the prices of crude and refined edible oil, the risks arising from import duty changes, currency fluctuations, geo climatic conditions and potential supply disruptions (given the import dependence) may impact the profitability margins of the company. Although, the company undertakes forex hedging to mitigate the risk to some extent. Acuite believes that company's ability to pass on the volatile prices to the consumers will remain the key monitorable.

Intensive Competitive Industry

The industry continues to face intense competition from both large and organised players as well as from the fragmented & unorganised market. The intense competition and the price-sensitive nature of consumers might also restrict the pricing flexibility across several product categories.

Assessment of Adequacy of Credit Enhancement under various scenarios including stress scenarios (applicable for ratings factoring specified support considerations with or without the "CE" suffix)

- Debt Service Reserve Account with funds equivalent to 12.6% of the issue size to be maintained in the form of Cash/ Fixed Deposit/ AA to AAA rated Debt securities and sovereign debt securities, if any combination, for the minimum duration covering the tenor of the NCD and always charged to Debenture Trustee.
- Required DSRA has to be created upfront out of the proceeds of NCDs
- Interest and/or Principal repayment amount to be deposited in a separate escrow account at least 5 days prior to the repayment date.
- In case the required amount is not deposited in escrow account by T-5, T being the due date of interest/ principal repayment, then debenture trustee will invoke DSRA to ensure timely repayment of interest/ principal.
- In case of the Utilization of DSRA as mentioned above, the issuer must replenish the required DSRA account within T+7 days.

Stress Case Scenario

Acuite sensitized that the net cash accrual, even if adjusted by 50%, the company would be able to meet its debt obligations. Over and above this, the company is expected to maintain DSRA of 12.6% of the issue amount which is to be replenished in a time bound manner in case of meeting any exigency and shortfall.

ESG Factors Relevant for Rating

Environmental (E) initiatives focus on resource conservation and environmental stewardship. The company, has engaged in tangible efforts like its Urban Forest CSR initiative, creating dense, biodiverse green spaces using native trees to combat air pollution, mitigate the urban heat island effect, and sequester carbon. This indicates a focus on offsetting its operational footprint.

Social (S) responsibility is evidenced by a stated commitment to employee well-being and fair-trade practices. The group also has a dedicated BN Welfare Foundation and a Director of CSR, highlighting a formal structure for community engagement.

For **Governance** (G), the company emphasizes transparency and a multi-stakeholder approach. Leadership, including the Founder and Chairman, are noted for their involvement in social and business initiatives, aiming to create value for customers, employees, and shareholders alike, while diversifying into sustainable sectors like renewable energy.

Rating Sensitivities

- Improving scale of operations while maintaining the healthy margins
- Movement in Financial risk profile

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuité has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.
